

# CALCIUM CARBONATE DIVISION

## SERVICE

We are committed to providing the highest level of service to our Clients and Partners. Our people work hand in hand to ensure that we meet with all deadlines and always keep our Clients up to date on all aspects of their projects.

## QUALITY

From the initial design, through in-house manufacturing to a successful installation, quality is foremost in our minds and values. We only use the highest quality material and our team of professionals strive at every point to provide a quality product every time.

## VALUES

We are committed to giving our Clients the best value in everything we do. As a client of Keegan Calcium Carbonate, you can rest assured that you are getting the best value for your budget without any reduction in quality or turn around time.

## ENVIRONMENT

Keegan Group is very proud to be environmentally aware and conscious of protecting the environment. Our modern transport fleet has reduced emissions using euro 6 category engines and our quarry operations are efficiently run with modern low emission equipment. In an effort to help reduce our carbon footprint we have planted over 35 acres of forestry on land owned by the company.
